

Lantmännen receives a dispensation to continue grain operations at Frihamnen

Lantmännen and Stockholms Hamnar have agreed on a dispensation that allows grain operations at Frihamnen in Stockholm to continue. The dispensation applies for three years, with an option to extend for a further two years. At the same time, development is underway to build a more modern, long-term sustainable grain infrastructure in Mälardalen and Hargshamn.

Lantmännen's current lease at Frihamnen in Stockholm expires in December 2028. The dispensation postpones the decommissioning of the silo facility, meaning Lantmännen can continue operating the site.

"We are continuing to develop a modern, long-term sustainable grain infrastructure in Mälardalen and Hargshamn, while operations at Frihamnen can continue for three more years. The dispensation gives us time to ensure a responsible and stable transition," says Joachim Haas, vd för division Fastighet, Lantmännen.

"Frihamnen is an important part of Stockholm's port infrastructure, and we welcome the decision that Lantmännen will continue its operations at Frihamnen. Transition solutions of this kind are crucial for the port area's development to proceed in the long term, in collaboration with all relevant stakeholders," says Jens Holm (V), styrelseordförande, Stockholms Hamnar.

The dispensation period runs for three years starting 1 January 2029, with an option to extend for a further two years.

About Lantmännen

About Lantmännen: Lantmännen is an agricultural cooperative and Northern Europe's leader in agriculture, bioenergy and food products. Owned by 17,000 Swedish farmers, Lantmännen has more than 10,000 employees, operations in over 20 countries and an annual turnover of SEK 60 billion. With grain at the heart of the operations, Lantmännen refine arable land resources to make farming thrive. Some of Lantmännen's best-known food brands are AXA, Kungsörnen, Scan, GoGreen, FINN CRISP, Schulstad and Vaasan. The company is founded on the knowledge and values acquired through generations of farmers. By engaging in research, development and operations throughout the value chain, Lantmännen takes responsibility from field to fork.
