

Lantmännen Group strengthens its climate efforts – Scan Sverige’s climate targets also approved

Scan Sverige’s climate targets have been approved by the Science Based Targets initiative (SBTi). This means that all three businesses in Lantmännen’s Food Division – Lantmännen Unibake, Lantmännen Cerealia, and Scan Sverige – now have SBTi-approved climate targets.

“SBTi is an important part of our climate efforts and provides a clear, science-based direction. At the same time, the targets need to be translated into concrete action. We therefore work across the value chain, together with farmers, suppliers, and customers, to reduce emissions,” says Claes Johansson, Head of Sustainability at Lantmännen.

Lantmännen Unibake’s targets were approved in 2023 and Lantmännen Cerealia’s in 2024.

For Scan Sverige, the targets cover both its own operations and emissions from farm to fork.

“A large share of emissions occurs early in our value chain, which makes collaboration essential. The farmers who supply us play a key role, and we see initiatives such as the Farm Initiative and our sustainability premium as important tools for driving progress,” says Elina Matsdotter, Head of Sustainability at Scan Sverige.

Facts and more information

The Science Based Targets initiative (SBTi) develops standards and criteria for corporate climate targets aligned with climate science.

About Lantmännen

About Lantmännen: Lantmännen is an agricultural cooperative and Northern Europe’s leader in agriculture, bioenergy and food products. Owned by 17,000 Swedish farmers, Lantmännen has more than 10,000 employees, operations in over 20 countries and an annual turnover of SEK 60 billion. With grain at the heart of the operations, Lantmännen refines arable land resources to make farming thrive. Some of Lantmännen’s best-known food brands are AXA, Kungsörnen, Scan, GoGreen, FINN CRISP, Schulstad and Vaasan. The company is founded on the knowledge and values acquired through generations of farmers. By engaging in research, development and operations throughout the value chain, Lantmännen takes responsibility from field to fork.
