

Lantmännen Maskin opens new machine plant – improves range and service opportunities for agriculture in Sörmland

Lantmännen Maskin opens new machine plant in Nyköping. The plant will be Lantmännen Maskin's largest in Sweden and will bring several benefits to the local farmer.

"This is an investment that will make it easier for farmers in Sörmland. We will be able to offer a greater range of products and improved service options and hopefully be able to support the farmer before and during the most important harvest for a long time," says Peter Annas, CEO of Lantmännen Maskin.

Lantmännen Maskin offers both sales and service of agricultural machinery and tools to farmers throughout Sweden.

"We have an ongoing dialogue with our members – active farmers – how we can best develop the business and make their everyday lives easier. The investment in a new machine plant in Nyköping is an example of improvements that we are now implementing," says Peter Annas.

The opening of the new machine plant on 3 May began with a ceremony with Peter Annas, CEO of Lantmännen Maskin, Arvid Lindgren, farmer and district chairman of Lantmännen's Sörmland district and site manager Mathias Jensen. In total, over 300 farmers from all over Sörmland attended the opening, a number that was higher than expected as the day offered brilliant sun and excellent weather to continue with the delayed spring sowing.

About Lantmännen

Lantmännen is an agricultural cooperative and Northern Europe's leader in agriculture, machinery, bioenergy and food products. Owned by 18,000 Swedish farmers, we have 12,000 employees, operations in over 20 countries and an annual turnover of approximately SEK 70 billion. With grain at the heart of our operations, we refine arable land resources to make farming thrive. Some of our best-known food brands are AXA, Kungsörnen, Scan, GoGreen, FINN CRISP, Schulstad and Vaasan. Our company is founded on the knowledge and values acquired through generations of farmers. With research, development and operations throughout the value chain, together we take responsibility from field to fork. For more information: www.lantmannen.com
