Jan-Aug 2023

Adjusted for items affecting comparability

Improved cash flow in the second fourmonth period

- Stronger cash flow driven by:
 - Better result
 - Slowdown of the previously sharp increase in working capital
- Great focus remains on working capital

- Lower prices for grain and ethanol
- Weaker Swedish currency and rising market interest rates

Wheat (Matif) (EUR / tonne)

Ethanol (EUR / 1 000 litres)

Exchange rate (EUR / SEK)

Central bank's policy rate

Continued strong financial key figures

Agriculture Sector

- Lower result in the Swedish agricultural operations
- Lower harvest volumes and poorer grain quality than normal
- The result in the Finnish agricultural operations in line with the previous year
- Slightly higher result in Lantmännen Maskin

EnergySector

- Slightly higher result in Lantmännen Biorefineries
- The ethanol price has stabilized on a lower level – however, this has been compensated by a corresponding decrease in raw material prices
- Continued increased sales of starch and gluten
- Aspen continues to develop positively, despite lower volumes due to adverse weather
- Scandbio delivered another strong result in the four-month period

Food Sector

- Higher result in the international operations – partly due to the weak Swedish currency
- The result in the Swedish business has decreased by more than a third so far this year
- Continued challenges not least in the form of high costs and fierce competition from Private Labels

SweconBusiness Area

- Higher delivery rate in the period
- Decreased order intake due to reduced demand in all markets during the period
- Reduced demand for used machines and rental machines

Real Estate

Business Area

- Installation of solar panels at Lantmännen's facilities is ongoing
- The joint venture Lanthem has signed a lease for a care home in Malmö

Positive development in most businesses

Higher result for the first eight months

Sustainable Business Development

Environment

- Open call of 25 MSEK from Lantmännen's Research Foundation
- Climate & Nature continues to grow in Finland
- Unibake's climate targets have been approved by the Science Based Targets initiative

Social responsibility

- Lantmännen's Health & Safety Awareness Training Program has been launched in four new languages
- Injury rate and sick leave decreased in the second four-month period

Governance

- Annual review and revision of Lantmännen's corporate governance documents
- The Energy Sector and Unibake have appointed individuals responsible for strengthening the implementation of Lantmännen's compliance program

Other important events

- Henrik Sundell has been named new General Counsel for Lantmännen
- The EU's CAP directors visited the Svalöv Farm of the Future
- Climate & Nature volumes in Sweden are estimated at 130 000 tonnes – an increase by 15 000 tonnes

Henrik Sundell

The EU's CAP directors at the Svalöv Farm of the Future

- Difficult macro economic situation and great uncertainty in the world around us
- We expect a more challenging market situation going forward
- All businesses need to be ready to adapt to changing conditions
- Our financial position remains strong
